

SigLite Slim 1x5

T-S461

The touchpad sensor reads the digital, binary pressure of the stylus tip and transmits signature data to the computer at high speed for an easy, accurate electronic signature. A thin design and hinged cover protects the unit during transport.

BENEFITS

- 3rd-generation touchpad signing surface for cost efficiency
- Small size, weight, thin design, and hinged cover for portability
- √ High-quality biometric and forensic capture
- √ Topaz software suite bundled at no additional cost for complete signing and signature solution customization techniques
